ADDITIONAL STATEMENTS

PENSION INCOME TAXATION LIMITATION

• Mr. D'AMATO. Mr. President, I am pleased to support this bill and would like to submit this statement for the RECORD and to clarify that the language contained in the proposed legislation adds to the types of retirement income eligible for exemption. This language clearly intends to exempt from tax nonqualified deferred compensation that constitutes legitimate retirement income. Because it affects retirement income, only income from qualified retirement plans and non-qualified retirement plans that are paid out over at least 10 years, or from a mirror-type nonqualified plan after termination of employment, is exempt from State taxation.

The language does not prohibit States from imposing an income tax on non-residents' regular wages or compensation. Cash bonuses or other compensation arrangements that defer the receipt of salary, bonuses, and other types of wage-related compensation that are not paid out over at least 10 years or from a mirror-type non-qualified retirement plan are not exempt from State taxation. One example would be if a salary is earned in a State by an individual, whether a resident or nonresident, but is voluntarily deferred for a few years until the individual exits the state, and then is paid over in a lump sum, even while the individual is still employed by the company, that kind of payment should not qualify for exemption from nonresident taxation of pensions. It is the intent of this bill to permit the States to continue to tax this income, while protecting from taxation those deferred payments that are for retirement income, paid from plans designed for that purpose.●
